WHAT CAN I DO?

- Develop robust backend REST endpoints using Node.js and Express for seamless frontend integration
- Build and manage scalable frontend applications using React.js and Next.js, leveraging server-side rendering and static site generation
- Utilize TypeScript for type-safe, clean, and maintainable code. Style modern, responsive UIs with Tailwind CSS
- Data fetching with TanStack Query
- Create intuitive and performant forms using React
- Hook Form, integrated with Zod for schema validation
- Work with MongoDB (noSQL) and SQL databases (such as MySQL)

Personal Project

- Built MERN e-commerce site with browse, cart, and checkout features.
- Built MERN eLearning site with user authentication, course enrolment and chatting features
- Canteen Management system
- Dairy Management system
- Blog platform where user can write, edit and publish blog
